RECEIVED

MAR 09 2000

Dear Wendy Dixon,

1 I am a student at Rosemary Clark Middle School. I am writing cause of the
nuclear waste. I have a couple of concerns one of them is that I think you guys shouldn't
bring this stuff to our town I think it is bad cause of the radioactivity in the truck. It won't
be good on the people it's not something you should do to us it can give us of lot of
2 radiation. What I would like done about the concerns is don't bring it threw the town but
it won't do much good if you bring it some where else cause no matter where you put it,
it can still harm us.

Sincerely,

Sammy Blodgett
